Subject: Deficient Application for Transfer of Notice of Intention, UDOT Beck Street Quarry,
M/011/0003, Davis County, Utah

Dear Messrs. Hughes and Nussbaum:

On October 1, 2012, the Division of Oil, Gas and Mining received an Application for Transfer of Notice of Intention for the UDOT Beck Street Quarry from the Utah Department of Transportation to Lakeview Rock Products, Inc. Before issuing approval, the Division must receive the following items:

1. A signed Reclamation Contract (Form MR-RC) (enclosed) and reclamation surety in the amount of \$374,100.00 from Lakeview Rock Products. Please contact the bonding coordinator, Penny Berry, at 801-538-5291 or by e mail at pennyberry@utah.gov to obtain the appropriate bond forms.
2. Resubmit the package received by the Division on October 1, 2012, as the form was not signed or dated on page 3 of 3 (form MR-REV-att) and the last page submitted (form MR-LMO) was not an original signature. Both documents need to have original signatures.

Please be aware the replacement pages submitted will not replace the existing pages in the current Notice of Intention (NOI), without extensive modification. The Division recommends that you submit replacement pages for the NOI using the original electronic document as a template for the information needed. These replacement pages would show the modified ownership and control information. The Division also suggests that you submit a page with a statement indicating that references in the NOI to UDOT or the Utah Department of Transportation should now refer to Lakeview Rock Products.

MICHAEL R. STYLER
Executive Director

Division of Oil, Gas and Mining

JOHN R. BAZA
Division Director

Please be aware that the reclamation surety is past due for adjustment. The Division sent an initial review letter on September 1, 2011, to the Department of Transportation, regarding the surety calculations and periodic plan review, but a response has not been received. The Division will need to receive a response to the review letter from Lakeview Rock Products and will likely need to adjust the amount of the surety.

Please submit this information within the next 45 days. Please contact Leslie Heppler at 801-538-5257 or me at 801-538-5261 if you have questions or concerns about this letter.

Sincerely,

Paul Baker
Minerals Program Manager
